

MOSES KIPKORIR CHERUIYOT

Python Developer | AI & Data Specialist

Nairobi, Kenya | +254 114 932232 | cheruiyot171@gmail.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Self-taught Python developer with over 3 years of experience building production applications using Flask, REST APIs, and Firebase. Strong background in data processing, API integration, and automation. Passionate about applying AI to real-world challenges, including wildlife conservation and community safety. Built and deployed inventory systems, payment integrations (M-Pesa), and AI-powered data extraction tools. Proven ability to work independently in remote environments and deliver working solutions.

TECHNICAL SKILLS

Python & Frameworks: Python, Flask, REST APIs, FastAPI (learning)

Databases: Firebase Firestore, SQLite, PostgreSQL (learning)

Tools & Platforms: Git, GitHub, Postman, Render, Cloudinary, Sentry

Data Processing: Pandas, regex, ETL pipelines, data validation, CSV export

AI/ML: YOLOv8, computer vision, model training (in progress)

Soft Skills: Problem-solving, analytical thinking, written communication, remote work discipline, attention to detail

Languages: English (Fluent), Swahili (Native)

PROJECTS

NdulaBox - Shoe Marketplace

React, Firebase, Cloudinary, Vite | [Live Demo](#)

E-commerce platform connecting Kenyan shoe vendors directly with customers. Features camera upload, real-time search, vendor store links, and WhatsApp sharing.

Superkeeper - Inventory & POS System

Python/Flask, React, Firebase, Cloudinary | [Live Demo](#)

Full-stack inventory management with batch tracking, FIFO cost allocation, bilingual UI, and real-time sales tracking.

SayIt - Reading Helper for Kids

React, Tesseract.js, Web Speech API | [Live Demo](#)

Kid-friendly OCR app that detects words from camera and reads them aloud using text-to-speech.

M-Pesa API Playground

Python, Flask, Daraja API, Sentry | [GitHub](#)

Interactive demo platform testing STK Push and B2C payment flows with error tracking.

Facebook Data Extraction Tool

Python, Flask, Pandas, Regex | [Live Demo](#)

Web-based pipeline extracting structured data from Facebook posts and comments with CSV export.

WORK EXPERIENCE

Software Developer (Self-Employed)

Jan 2024 – Present

- Designed, developed, and deployed multiple production web applications.
- Managed the complete software development lifecycle from concept to deployment.
- Built automation systems and deployed applications on Render and Firebase.

Customer Service Executive / Team Captain

Calltronix Kenya Ltd | 2021–2025

- Managed high-volume customer enquiries and payment processing via STK Push.
- Trained and mentored 5+ new agents on payment systems and escalation procedures.
- Maintained 95%+ on-time payment collections during peak operations.

Customer Service & Telesales Agent

Horizon Contact Centers | 2018–2020

- Handled inbound/outbound customer calls for DStv and GOtv subscriptions and retention.
- Contributed to the Buffer Team Model, improving call distribution efficiency.

Quality Control Technician

Menengai Oil Refineries Ltd | 2016–2017

- Conducted laboratory analysis to ensure product quality and maintained accurate records.

EDUCATION

Diploma in Analytical Chemistry – Rift Valley Institute of Science and Technology (2012–2016)

Coursework included laboratory analysis, quality control, and scientific reporting.

Computer Studies – Kenya Secondary Curriculum (Form 1–4)

Covered database fundamentals, computer applications, networking, and IT.

ADDITIONAL INFORMATION

- Self-taught Python, Flask, React, Firebase, and AI model integration.
- Currently learning PostgreSQL, Docker, and cloud architecture.
- Strong interest in applying AI to conservation, community safety, and education.
- Available for remote, part-time, or contract work.
